Flutter Developer

## EDUCATION

### BA in Software Engineering

Al-Azhar University

Gaza, Palestine

Graduating June 2023

## EXPERIENCE

### QUOTY FOR TODAY APP

- MVC architecture
- **Riverpod** as state management
- **SQLite** to save favorites
- Quotable **API**
- Unsplash **API**
- Gemini **API** for translation
- Code Generation

**Some Packages:** google\_generative\_ai, freezed, lottie, esys\_flutter\_share\_plus, dio, sqflite, cached\_network\_image, flutter\_riverpod, path\_provider.

[Project on GitHub](#) [App on Amazon App Store](#)

### DAYTRACKER APP

Used **Firestore database** as database, **provider** as state management and **Google maps platform** to support maps in the app. Used a lot of dependencies like **weather**, **equitable**, **custom\_timer**, **location**, **cached\_network\_image**, **firebase\_storage**, **image\_picker**, **google\_maps\_flutter** and more.

[Application here](#)

### YALLA NJOOM APP

Developed an app for children using **Flutter** to teach Arabic letters and numbers and some operations in an attractive way through various educational methods. Used **Firestore database** as database, **provider** as state management. Used a lot of dependencies like **flutter\_sound**, **audioplayers**, **animations**, **permission\_handle** and others.

[Application here](#)

### CHATTY APP

Developed an app like other chat apps with a different style using **Flutter**. Used **Firestore database** as a **database**, and **Firebase Authentication** to save user's profile.

## **COURSES**

- Flutter Development at GSG
  - Dart for Flutter
  - Flutter Basics and Widgets
  - Flutter Responsive UI
  - User Inputs (Forms) and Validation
  - State Management (Provider, GetX, Riverpod)
  - Local Storage (SQFLite, Shared Preference, Files)
  - Firebase (Realtime Database, Firestore Database, Authentication)
  - Handling with APIs
  - Google Maps
  - Releasing Apps
- Flutter & Dart - The Complete Guide [2024 Edition] by Maximilian Schwarzmüller (Max)
- UI/UX Designing at C2C
  - Wireframing
  - Prototyping
  - Sketching on Balsamiq
- Introduction to Android Application Development at Islamic University
- HTML5, CSS3 freeCodeCamp
- Java Introduction and Advanced

## **SKILLS**

- VSCode
- FIGMA
- Git and GitHub
- Clean Code
- Android Studio
- Microsoft office
- Adobe Photoshop
- Adobe Illustrator
- Notion

## **LANGUAGES**

**Arabic:** Native

**English:** Conversational

**Turkish:** Conversational
