## SUMMARY

Flutter Developer with a Software Engineering degree and hands-on experience building mobile apps with API integration, Firebase, Supabase, Google Maps, and state management (Provider, Bloc, Riverpod). Skilled in writing clean, maintainable code and implementing intuitive user interfaces, and with good knowledge of UI/UX design principles. Earned 100+ 5/5 client ratings on freelance platforms as a designer, and previously taught programming fundamentals, enhancing communication, problem-solving, and technical clarity.

## SKILLS

**Technical Skills:** Flutter | Dart | Firebase | Supabase | REST APIs | State Management (Provider, Bloc, Riverpod) | UI/UX Principles | Java | SQL | HTML | CSS | Git | Figma

**Transferable Skills:** Critical Thinking & Rapid Learning | Problem Solving | Communication | Time Management | Teamwork & Independent Work | Curiosity & Adaptability

## EXPERIENCE

### Intern Flutter Developer, *Gaza Sky Geeks (GSG)*

Jul 2025 – Nov 2025

- Developed the OnceInMind journal app using Cubit, Firebase, and Google Maps with smooth performance and intuitive UX.
- Built a scalable e-commerce app using Bloc and REST APIs, applying clean architecture and ensuring fast, reliable API responses.
- Collaborated in code reviews and sprint planning; optimized state flows and reduced unnecessary rebuilds, improving code quality and app load times.

### Programming Instructor, *Alaqsa International Schools*

Oct 2024 – May 2025

- Taught programming fundamentals to 4th–9th grade students.
- Prepared structured learning materials and exercises.
- Helped students build their first interactive projects and improved problem-solving skill.

### Logo Design Freelancer, *Mostaq and 5amsat platforms*

Nov 2022 – Oct 2024

- Delivered creative logo and visual designs for **100+** clients, achieving **5/5 ratings** and the **Top Seller badge**.

## PROJECTS

- **OnceInMind (Journal App):** Bloc\Cubit, Firebase, Google Maps; mood tracking, secure notes, location-based features. [GitHub](#)
- **Quoty for Today App:** MVC, Riverpod, SQFLite; integrated Quotable, Unsplash, Gemini APIs; animations with Lottie. [GitHub](#) | [Amazon App Store](#)
- **Yalla Njoom App:** Educational app for children; audio, animations, permission handling.
- **Chatty App:** Firestore & Firebase Auth; modern UI and unique chat features.

## **COURSES**

- Flutter & Dart - The Complete Guide [2024 Edition] by Maximilian Schwarzmüller (Max) on Udemy.
- UI/UX Designing at Challenge to Change (C2C).
- Introduction to Android Application Development offered by IEEE student branch of Islamic University

## **EDUCATION**

### **BA in Software Engineering**

Al-Azhar University

Gaza, Palestine

Graduated June 2023

## **LANGUAGES**

- **Arabic:** Native
- **English:** Conversational
- **Turkish:** Conversational
